SUMMARY

I'm a dedicated IT student with a passion for web development and backend technologies. Proficient in languages like Node.js, Python, and PHP, I have a solid understanding of database management and problem-solving. I've led teams in developing various projects, including microservices and web applications. Additionally, I'm committed to continuous learning, evident through my participation in extracurricular activities and acquisition of multiple certifications in software development and user experience design.

EDUCATION

Bachelor of Information Technology, October Technological University   Expected 2026

Relevant Coursework: IT, Web Development, Database, Programming, Software Engineering.

SKILLS

Technical Skills	Node.js, Mongodb, Mongoose, PHP, Laravel, Python, Django, Data Structure, Git&GitHub, Gitflow, HTML, CSS, JavaScript, C/C++, UI, UX, Bootstrap, mySQL, OOP, Problem solving, Algorithms, API.
Soft Skills	Teamwork, Communication, Learning, Planning,

PROJECTS

Red Triangle. Build a WebApp that displays products and companies supporting the occupying entity and local products for users by using PHP and mySQL. [(GitHub)](#)

Expenses&Income Tracker. Built a WebApp to Tack income and expenses by save all data in database and show them with useful way by using Python/Django, mySQL, Bootstrap and AWS. [(GitHub)](#)

Check my Github for more projects. github.com/ahmedhosam-dev

CERTIFICATES

Career Essentials in Software Development   [certificates](#)
Microsoft and LinkedIn   *March 14, 2024*

- Software Development
- Programming

BackEnd Development and APIs   [certificates](#)
Freecodecamp   *March 14, 2024*

- BackEnd Development (express/node.js)
- APIs
- Mongodb (mongoose)

JavaScript Algorithms and Data Structures   [certificates](#)
Freecodecamp   *June 27, 2023*

- JavaScript
- Algorithms and Data Structures
- Coding

User Experience Design   [certificates](#)
EDRAAK   *June 26, 2023*

- UX

EXTRA-CURRICULAR ACTIVITIES

- Assistant Head of the Scientific Language Department at the university, we have prepared seminars and practical competitions for students during the study period.

LEADERSHIP

- Admin for a team to complete a project of a website displaying student projects at the university, distributing tasks, assessing, reviewing, and assisting in case of any issues. These were my tasks in this project in addition to designing the user interface using Figma. In the end, we received the final grade, and now the project is under construction to be published for the public and students.

- Leading a team to complete a project of a website for displaying products and a dashboard for the admin to control the site, add and delete products, add users, and view an overview using PHP, MySQL, HTML, and CSS.

- Leading small teams with simple tasks related to the university's affairs.
